Plu krati (supra toto plu occide krati) dissipa a natio pluto epi plu atcmi bomba. Iso-tem panto-lo epi Gaia plu individua e grupa introduce plu neo revolutio idea. Pleisto krati akti como plu-la de Viktria. U medika establi manta in un occide pa es panto-chron inter plu maxi orthodoxi de plu organizatio. Pleisto-pe nu esthe que plu medika-pe face ma patho de mu remedi. Mu es infra u kontrola de plu mega chemi e pharmako Kompani. Plu chirurgi-pe gene hedo e pseudo-status ex sporta syn plu alti-tech mechanii. Sed u demo proto vide dia un holora. Pleisto-pe nu ski; que plu neo pharmako simpli introduce plu neo patho. Anti u demo logi u-ci; id ne logi a-nu u neo medicina. ....Holistika e Alternative.

Wendy Savage, u famo e fo-succede obstetri-fe gene prosekti per u grappa de garagisti, qui extrakti plu baby per poly speci instrumenta.

U futuri Chloro Sani fu preventi patho vice lose tem e valuta tenta trova plu remedi, qui more produce iso poly neo patho de mu tenta de remedi. U U.S. Iatri dice de u so-ge-nyma milita anti Kancera e deskrive id como u medika Vietnam. Plu billiona ge-spende, mega alti-technologi, plus iso-tem iso numera de persona mori ex Kancera de bi-penta annua retro.

Poly patho es iatrogenika; u seque de chirurgi interveni, plu pharmako, falsi medika-ma, e u frigi non-humanita atmosphera de u moderna patho-do. Medicina, qui debi akti humani, vice-cio pa du kopli u falsi objektiva de u paleo physika. Psychologi e sociologi pa akti homo.

".....Why not make Glosa completely phonetic? F for PH, T for TH, Y and I are same. Since continentals wont pronounce H why include it?..... Mr. W.A. Moyle, Didcot.

We quite agree. The sole reason for preserving PH, TH and H temporarily is this. We have to sell the idea of Glosa and we believe Glosa words must look as familiar as possible. For example most English and Americans will recognize CHLORO, green in CHLORO-PHYLL & CHLORINE, but might not readily recognize it if written KLORO & KLORO-FIL. We think it is a trivial point and it is up to individuals to go fully phonetic if they so wish. Its obviously better

Anti-cio poly-ci kultura gene menace e gene nekro per plu stupidi kapitalisti-sadisti e kommercia-pe. Plu ma-sophi Afrika e Asia natio proto stimula u developo de traditio medicina.

## WHY NOT COMPLETELY PHONETIC?

and quicker. Same goes to the use of double letters. Most Glosistas so far are linguistic-ally sophisticated so the point doesn't closely concern them. But we are aiming at intelligent people who have not yet studied another language and these must be given every encouragement. We believe we are right for the moment in emphasizing that every single Glosa word is to be found and easily recognizable in some English word which contains it. For such people RHINO, nose, snout will be more quickly recognizable in RHINO-CEROS than RINO, which at first sight might associate with RINse.

# TACHO-GLOSA

This finishes Tacho-Glosa 1000. The T-Line system of Shorthand is peculiarly well adapted to Glosa. It is intended to publish a book of Tacho-Glosa, much more elaborate and with plenty of Notes and exercises, together with the Shorthand form. T-Line strokes use sections of Roman letters, for example a or A is ^; K is <.
